Oklahoma State University, in compliance with the title VI and VII of the Civil Rights Act of 1964, Executive Order 11246 as amended, Title IX of the Education Amendments of 1972, Americans with Disabilities Act of 1990, and other federal laws and regulations, does not discriminate on the basis of race, color, national origin, sex, age, religion, disability or status as a veteran in any of its policies, practices or procedures. This includes but is not limited to admissions, employment, financial aid and educational services. Title IX of the Education Amendments and Oklahoma State University policy prohibit discrimination in the provisions of services or benefits offered by the university based on gender. Any person (student, faculty or staff) who believes that discriminatory practices have been engaged in based on gender may discuss his or her concerns and file informal or formal complaints of possible violations of Title IX with OSU's Title IX coordinator: the Director of Affirmative Action, 408 Whitehurst, Oklahoma State University.

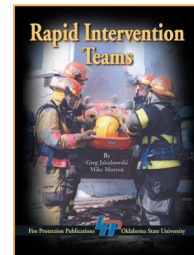

This publication, issued by Oklahoma State University as authorized by Fire Protection Publications, was printed at no cost to the taxpayers of Oklahoma.

## Fire and Emergency Services Higher Education (FESHE)

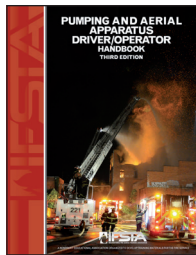

The Fire and Emergency Services Higher Education (FESHE) initiative is a project of the U.S. Fire Administration. FESHE provides model course outlines for fire related and EMS management courses in two and four year academic degree programs. IFSTA publishes 13 textbooks that support the FESHE model curriculum. Robust student and instructor support products are also available including **eBooks** and apps to ensure student success. Fully accessible content is available to meet the needs of students with disabilities. For more information contact [resources@osufpp.org](mailto:resources@osufpp.org).

## Exam Prep Plus Apps

Succeed with the NEW **Exam Prep Plus Apps**. Prepare for certification exams while on the go! **Exam Prep Plus Apps** are portable versions of the IFSTA **Exam Prep** products, and include all questions. Use your tablet or phone to view the questions. Select which chapters or sections to study. Miss a question? Put it back and try again. Get it right? Remove it to focus on other learning objectives. **Exam Prep Plus Apps** track your progress so you always know how well you are doing. With the easy-to-use interface and flexible navigation the **Exam Prep Plus Apps** are a valuable study tool!

- **Aircraft Rescue and Fire Fighting, 6<sup>th</sup> Edition, Exam Prep Plus App**
- **Essentials of Fire Fighting, 6<sup>th</sup> Edition, Exam Prep Plus App**
- **Fire and Emergency Services Company Officer, 5<sup>th</sup> Edition, Exam Prep Plus App**
- **Fire and Emergency Services Instructor, 8<sup>th</sup> Edition, Exam Prep Plus App**
- **Fire Inspection and Code Enforcement, 8<sup>th</sup> Edition, Exam Prep Plus App**

Check the App Store for NEW App Bundles!

# ResourceOne

## An Online Fire Service Training Solution Based on IFSTA Publications and Curriculum

**ResourceOne** is a one-stop learning management system (LMS).

- ✓ Affordable
- ✓ Easy to use
- ✓ No contracts
- ✓ Customization/technical support
- ✓ No setup fees or development costs
- ✓ All of your department's training hosted and managed in one central location
- ✓ Train-the-trainer sessions to assist with implementation in your department
- ✓ Downloadable instructor materials for verified fire service instructors

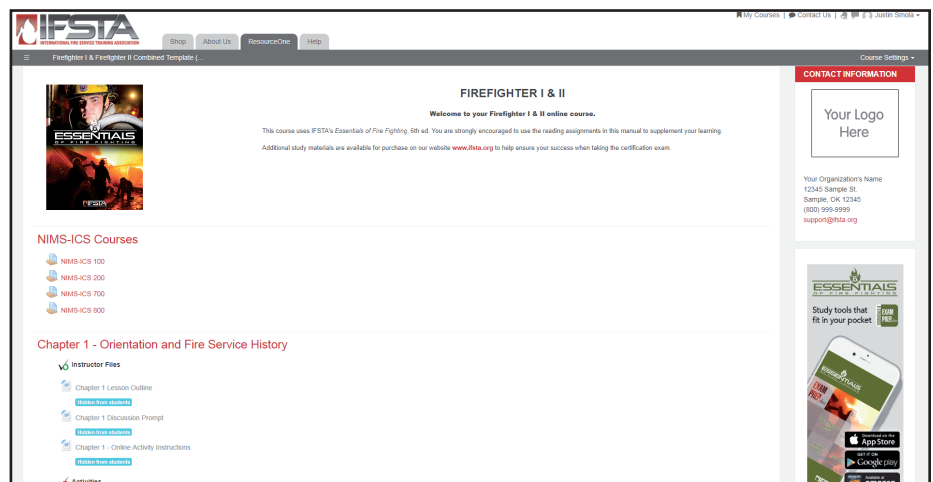

**ResourceOne** can help instructors meet the training needs of their department for in-classroom, blended, and online training.

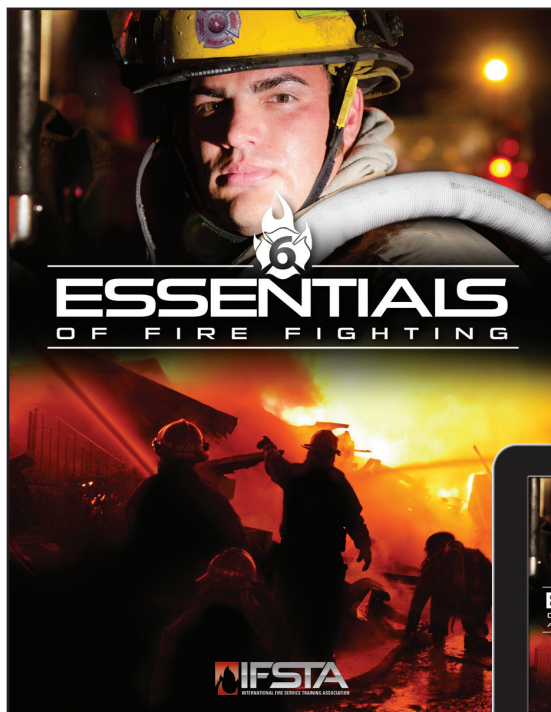

**INSTRUCTORS** can use  
**ResourceOne** to:

**r1.IFSTA.org**

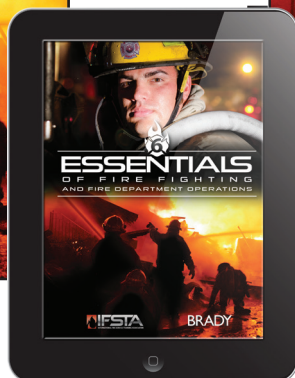

- Deliver the content of a course in a “virtual classroom” environment
- Blend face-to-face training and online instruction
- Focus in-person classroom time on skills-based training rather than cognitive content
- Provide course materials (syllabus, quizzes, homework, SOPs, etc.) to students online
- Provide customized content for students to personalize training courses and meet local requirements
- Host department-specific content such as videos, SOP/SOGs, student handbooks

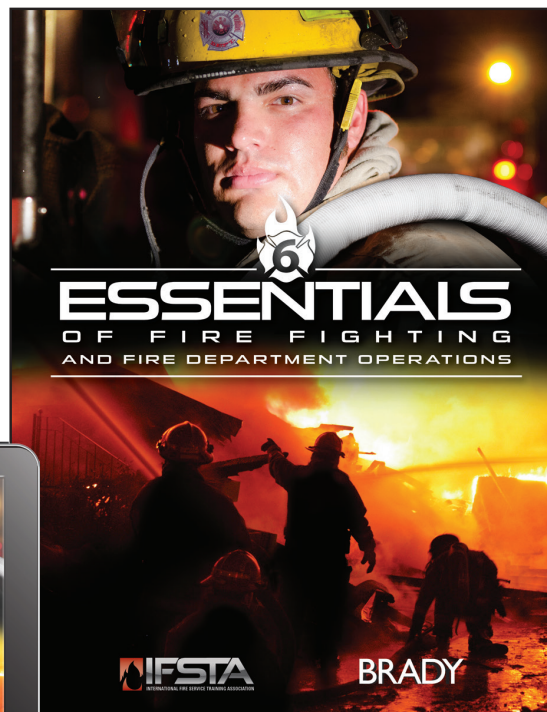

For more information about ResourceOne and to access the FREE Curriculum content, please contact your IFSTA representative at [resources@osufpp.org](mailto:resources@osufpp.org).

## ESSENTIALS OF FIRE FIGHTING, 6<sup>TH</sup> EDITION

## ESSENTIALS OF FIRE FIGHTING AND FIRE DEPARTMENT OPERATIONS, 6<sup>TH</sup> EDITION

IFSTA's **Essentials of Fire Fighting, 6<sup>th</sup> Edition** is the most complete and comprehensive introductory firefighter text on the market. This new edition is completely revised to meet the 2013 edition of NFPA® 1001, and brings you the most trusted in-depth knowledge content in the business. Key features include:

- Separation and clear identification of Firefighter I and II content
- Updated content, skills, and tactics that reflect the latest research from NIST and other fire service organizations
- Student-focused design with high quality photos, illustrations, key term emphasis, and engaging case histories
- Full suite of electronic products including: eBook, skills videos, study apps, exam prep and **ResourceOne** learning management system
- Educationally sound instructional materials - free to fire service instructors

In partnership with Brady Publishing, the **Essentials of Fire Fighting and Fire Department Operations, 6<sup>th</sup> Edition** offers three additional chapters addressing emergency medical care, and Hazardous Materials Awareness and Operations content specified in NFPA® 1001.

### PACKAGES WITH ESSENTIALS OF FIRE FIGHTING MANUAL - SAVE 10%

## IFSTA NEW EDITIONS STREAMLINE DRIVER/OPERATOR TRAINING

The new editions of these bestselling IFSTA fire apparatus driver/operator training materials mark a new approach to training driver/operators. Previously, IFSTA published two separate manuals with student and instructor support materials: **Pumping Apparatus Driver/Operator Handbook** and **Aerial Apparatus Driver/Operator Handbook**. Fire departments with both types of apparatus needed two manuals, two curricula and driver/operator trainees needed two exam preps to study for tests.

The release of the 3<sup>rd</sup> edition of these manuals streamlines the IFSTA training resources. The **Pumping Apparatus Driver/Operator Handbook, 3<sup>rd</sup> Edition** covers pumping apparatus only. The second book in the pair, **Pumping and Aerial Apparatus Driver/Operator Handbook, 3<sup>rd</sup> Edition** contains the same 15 chapters as the pumping apparatus textbook, plus an additional 5 chapters relevant to aerial apparatus. Personnel on departments that operate both types of apparatus now only need one manual and one curriculum for training. Students only need one exam prep to prepare for testing. If a fire department does not use aerial apparatus, they use the **Pumping Apparatus Driver/Operator Handbook, 3<sup>rd</sup> Edition** and omit the aerial sections of the curriculum and exam prep which include all 20 chapters.

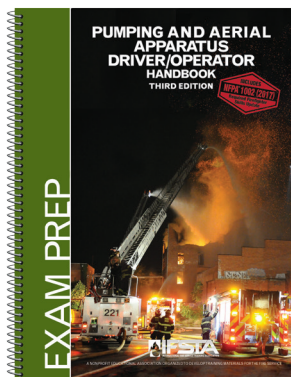

Chapters 2 and 3 are especially beneficial for all driver/operators: *Inspection and Maintenance*, and *Safety and Operating Emergency Vehicles*.

### PUMPING APPARATUS DRIVER/OPERATOR HANDBOOK, 3<sup>RD</sup> EDITION

- Skill Sheets now included
- Key Terms added
- The new Fire Apparatus Manufacturer's Association (FAMA) standardized safety signs for fire apparatus are highlighted
- Hydraulic calculations presented in a logical sequence making teaching and learning easier
- Customary and metric calculations in one chapter
- NEW case histories introduce each chapter
- NFPA 1002 JPR Correlation Matrix

### PUMPING AND AERIAL APPARATUS DRIVER/OPERATOR HANDBOOK, 3<sup>RD</sup> EDITION

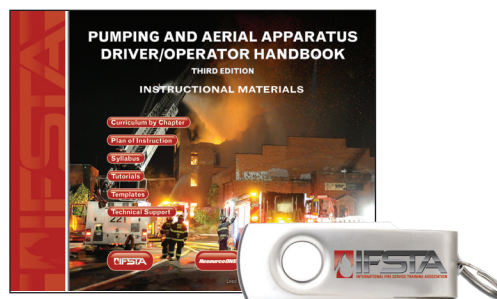

- Skill Sheets now included
- Key Terms added
- Aerial apparatus safety emphasizes the most common risks based on actual incidents including: stabilizing equipment before raising the aerial device, wearing fall protection, and avoiding power lines
- Strategy and tactics include assessing rescue priorities specifically for aerial placement and deployment
- Chapters address proper stabilization, positioning and operation of telescoping, and articulating aerial devices

**Exam Prep Print**  
Item 36730.....\$30.00

953 Questions

Intended to prepare the student for end of course tests and written portions of certification exams, this self-study includes 953 questions from all 20 chapters of **Pumping and Aerial Apparatus Driver/Operator Handbook**. Page referenced for correct answers in **Pumping and Aerial Apparatus Driver/Operator Handbook**.

**Curriculum USB Flash Drive**  
Item 36732.....\$199.00

The **Pumping and Aerial Apparatus Driver/Operator Handbook** curriculum includes all 20 chapters and an all new design based on the latest research in effective adult instruction. The package covers all classroom and assessment materials needed to deliver a course. Features include: user-friendly interface, plan of instruction, lesson outlines, redesigned PowerPoint® presentations, chapter quizzes, tests, skill evaluation checklists, learning activities, tutorials, and much more.

**Instructor Resource Kit**  
Item 36754.....\$271.00

Designed for instructors with the curriculum materials on a flash drive. With the IRK all instructional materials go where you go and are available when the Internet connection is not reliable. The print textbook and the Exam Prep Print are included.

**Exam Prep Plus App**

Prepare for certification and end of course exams on the go! Exam Prep Plus App is a portable interactive version of the IFSTA Exam Prep Print with all 953 multiple choice questions. Use your tablet or phone. Download on the App Store, Google Play, or Amazon.

HAZARDOUS MATERIALS FOR FIRST RESPONDERS, 5<sup>TH</sup> EDITION

Prepare to respond to hazardous materials and weapons of mass destruction (WMD) incidents. This new edition provides first responders with information to take appropriate initial actions at WMD incidents and hazardous materials spills or releases. The focus is detailed information about hazardous materials initial operations.

NFPA 1072, *Standard for Hazardous Materials/Weapons of Mass Destruction Emergency Response Personnel Professional Qualifications*, 2017 Edition

Awareness Level

Operations Level

Mission-Specific Competencies from NFPA 1072:

- Evidence Preservation and Public Safety Sampling
- Personal Protective Equipment
- Decontamination
- Detection, Monitoring, and Sampling
- Victim Rescue and Recovery
- Product Control
- Illicit Laboratories

## Key Features of the Text

- Learning objectives at the beginning of each chapter
- Case Study to focus student learning
- Key Terms and Definitions are highlighted
- Warning and Caution Boxes Emphasize Safety
- Review questions at the end of each chapter

Complete IFSTA Curriculum for instructors and study tools for students

- Syllabus
- Teaching Outline
- PowerPoint
- Tests and Quizzes
- Student Workbook
- Exam Prep
- eBook
- Exam Prep Plus App

40 skill sheets are provided at the end of chapters to provide step-by-step instructions to perform crucial skills.

Correlation to JPRs from NFPA 1072 and NFPA 472 in Appendix A.

## HAZARDOUS MATERIALS TECHNICIAN, 2<sup>ND</sup> EDITION

**JUST RELEASED!** Meets the requirements of the new NFPA 1072, *Standard for Hazardous Materials/Weapons of Mass Destruction Emergency Response Personnel Professional Qualifications*, 2017, Chapter 7, Technician. This is the only training manual with content to meet the new NFPA 1072 Professional Qualification Standard and to prepare haz mat responders for certification exams.

This manual follows the hazardous materials incident Analyzing, Planning, Implementing and Evaluating (APIE) model. The chapters of the book are in a logical sequence to make mastering the knowledge and skills apply directly to personnel responding to a hazardous materials and/or weapons of mass destruction incident.

The new text includes 49 skill sheets, with illustrated step-by-step directions for all skills required by NFPA 1072.

This NEW manual is designed to prepare emergency responders to conduct advanced, technical, offensive operations at hazardous materials incidents.

All knowledge and skills technicians must know, from incident analysis to termination are covered in depth. This includes haz mat chemistry; container identification, construction features and leak points; as well as product control and decontamination operations. Each chapter begins with a list of specific learning objectives and the correlating job performance requirements (JPR's) in NFPA 1072. The JPR's are indexed in Appendix A for students and instructors to find the exact pages to locate the applicable content.

This new text also meets Technician Level requirements in OSHA Title 29 CFR 1910.120 (HAZWOPER). NFPA® 472, *Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents*, is also referenced where appropriate.

Case histories open each chapter to illustrate important lessons learned in the real world. Photos, tables, and graphics help students master important concepts. Key terms and definitions are highlighted, and Cautions and Warnings emphasize critical safety information.

## FIRE AND EMERGENCY SERVICES COMPANY OFFICER, 5<sup>TH</sup> EDITION

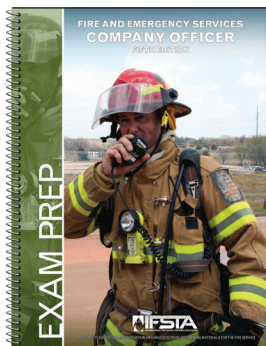

### Company Officer Training in One Text

This IFSTA manual details the training required for company officers according to NFPA® 1021, *Standard for Fire Officer Professional Qualifications*, 2014 Edition. The manual is divided making a clear distinction between Fire Officer Level I and Fire Officer Level II. Both print and eBook formats are available.

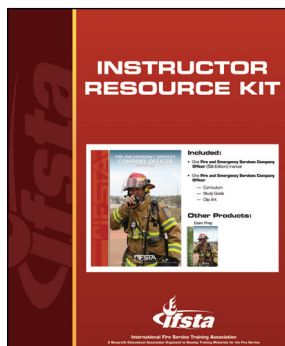

This text addresses the wide range of topics encountered by a company officer, from leadership and supervision to health and safety issues. The NFPA® 1021 job performance requirements are the focus of the book. The material is presented in a concise manner through 17 chapters making it easier for students to read and instructors to teach.

**Fire and Emergency Services Company Officer, 5<sup>th</sup> Edition** has new features: IFSTA's single-column format; complete and updated curriculum components; learning activities. Real world case histories open each chapter; photographs, illustrations, and tables illustrate key points insuring teaching and learning excellence.

### CHIEF OFFICER, 3<sup>RD</sup> EDITION

The updated 3<sup>rd</sup> edition of **Chief Officer** is designed to meet the job performance requirements for Fire Officer III and IV in NFPA® 1021, *Standard for Fire Officer Professional Qualifications*, 2014 Edition.

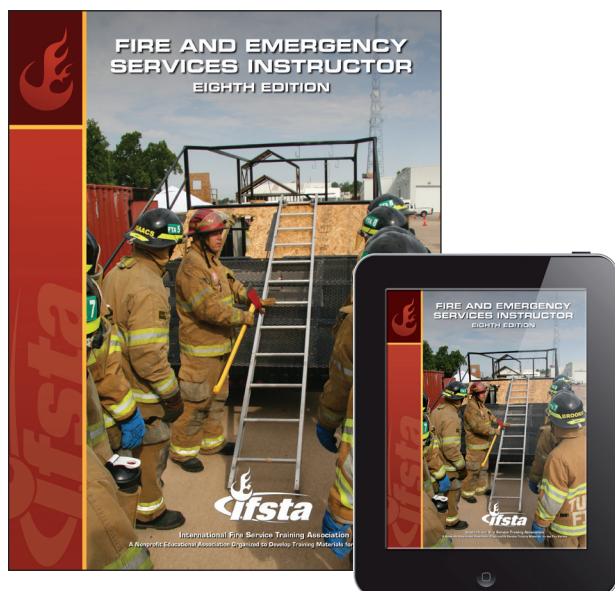

The content of this text provides chief officers and chief officer candidates with advanced level knowledge and skills to supervise, manage, and administer fire and emergency services organizations.

The third edition of **Chief Officer** concisely presents the material making it easier for students to comprehend and easier for instructors to use. The chapter arrangement provides a logical sequence for instruction. Material that supplements the job performance requirements of the standard is only included when determined necessary by the validation committee.

Case Histories open each chapter to illustrate important real world lessons. New learning objectives, images, tables, and review questions to illustrate key points are all included.

The eight chapters are divided into Fire Officer III and Fire Officer IV where applicable.

## FIRE AND EMERGENCY SERVICES INSTRUCTOR, 8<sup>TH</sup> EDITION

### State-of-the-Art Instructor Textbook and Curriculum

Qualified instructors to deliver effective training are key to a safe and effective fire service. The **Fire and Emergency Services Instructor, 8<sup>th</sup> Edition**, is your IFSTA source for instructor training. This text is excellent for teaching company-level trainers and is a great reference for Instructor Level I promotions.

The manual includes all JPR's for NFPA® 1041, *Standard for Fire Service Instructor Professional Qualifications*, 2012 for Instructor Levels I, II, and III. It also contains changes in NFPA® 1041, such as bias in instructional and testing materials.

Chapters 1-9 Level I

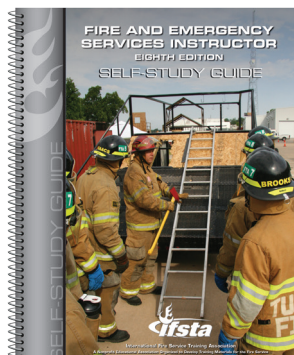

Chapters 10-14 Level II

Chapters 15-17 Level III

The text follows the Four-Step Model of Instruction: preparation, presentation, application, and evaluation for each instructor level. The 8<sup>th</sup> Edition features: case histories, the easy to read single-column format, and key terms highlighted in the margins.

The full curriculum package includes Lesson Plans, PowerPoint® presentations, tests, quizzes, and a digital workbook. The PowerPoint® presentations feature interactive slides and videos. A study guide is available in both print and electronic formats. The electronic study guide tracks a student's progress.

### **FIRE AND EMERGENCY SERVICES ORIENTATION AND TERMINOLOGY, 6<sup>TH</sup> EDITION**

The purpose of this manual is to acquaint new firefighters with the history, traditions, terminology, organization, and operation of the fire and emergency services. In addition, the manual contains typical job and operation descriptions that should provide insight into the inner workings of the fire service. An extensive fire and emergency services glossary is included. The manual is also intended for college students who are beginning their associate's level studies in fire related fields.

The scope of this manual is to meet the learning outcomes of the National Fire Academy (NFA) Fire and Emergency Services Higher Education (FESHE) Principles of Emergency Services associate's level course. In addition, information in this manual addresses numerous requisite knowledge items identified in Chapter 5, Fire Fighter I, and Chapter 6, Fire Fighter II, of NFPA® 1001, *Standard for Fire Fighter Professional Qualifications*. The manual is intended to be used in a college classroom, but is also an excellent companion text to IFSTA's **Essentials of Fire Fighting, 6<sup>th</sup> Edition** and **Essentials of Fire Fighting and Fire Department Operations, 6<sup>th</sup> Edition**.

### FIRE INSPECTION AND CODE ENFORCEMENT, 8<sup>TH</sup> EDITION

Make sure that you have the training and certification needed to provide the best risk reduction to your community. Reducing community risk requires trained individuals to verify that a locality adheres to locally adopted fire and life safety standards for structural safety components in construction and renovations. **Fire Inspection and Code Enforcement, 8<sup>th</sup> Edition**, provides fire and emergency services personnel and civilian inspectors with the basic information necessary to meet the job performance requirements (JPRs) of NFPA® 1031 for Level I and Level II Fire Inspectors. Chapters are delineated with two clearly marked sections: the first section for Level I information followed by a second section for Level II information.

### **FIRE PROTECTION, DETECTION, AND SUPPRESSION SYSTEMS, 5<sup>TH</sup> EDITION**

The purpose of **Fire Protection, Detection, and Suppression Systems, 5<sup>th</sup> Edition**, is to familiarize fire service members and other interested personnel with the components, design, maintenance, operation, testing, and inspection of common fire protection, detection, and suppression systems. This manual is not intended to substitute for training as a fire inspector or for personnel who design, maintain, and inspect such systems; however, it can serve as a valuable resource for personnel engaged in these activities. The audience for this manual includes:

- College students
- Fire service personnel
- Industrial fire protection personnel
- Building construction personnel
- All others seeking information on fire protection, detection, and suppression systems

The scope of this manual is to provide up-to-date information on fire protection, detection, and suppression systems. The manual is written based upon the current course objectives, outcomes, and outline for the associate's level course *Fire Protection Systems* as described in the *Fire and Emergency Services for Higher Education (FESHE)* core curriculum.

## FIRE PREVENTION APPLICATIONS FOR COMPANY OFFICERS, 1<sup>ST</sup> EDITION

By Brett Lacey and Paul Valentine

*Fire Prevention Applications for Company Officers* is specifically for company officers who have been, or are newly responsible for, conducting company level inspections. This text blends current and timely philosophical aspects of fire prevention and mitigation with technical inspection details to help a full-time or volunteer officer accomplish basic level inspections in a variety of occupancies. It provides summaries of various occupancy classifications,

hazards that are common to these locations, and details on how they should be managed. It provides other basic fire prevention information to help street-level personnel recognize critical fire prevention issues that may be easily corrected or that require the attention of assigned fire prevention personnel. This text is ideal for initial company officer training and on-going promotional training.

## FIRE PREVENTION APPLICATIONS, 2<sup>ND</sup> EDITION

By Brett Lacey and Paul Valentine

This NEW updated text presents fire prevention methods for comprehensive risk reduction strategies in detail. Community coalition building to solve present-day community risk challenges is emphasized.

The book meets the National Fire Academy FESHE Model Curriculum Associate's Core Course, Fire Prevention.

It can be used as a guide to implement a modern fire prevention and risk reduction program. It also provides fire prevention organizational structures, staffing options; with emphasis on successfully overcoming the challenges faced today in fire prevention and risk reduction bureaus.

Item 36200.....\$75.00

eBook

Item 75156.....\$63.75

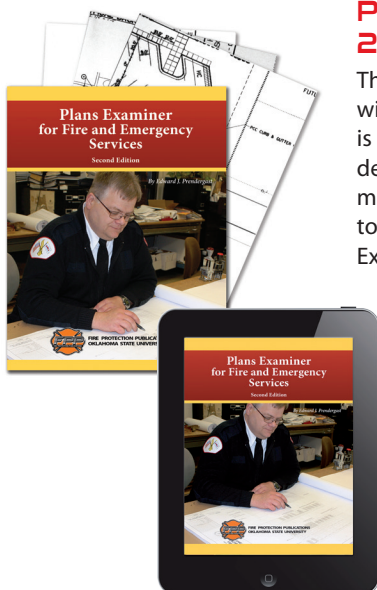

## PLANS EXAMINER FOR FIRE AND EMERGENCY SERVICES, 2<sup>ND</sup> EDITION

This UPDATED manual is for fire department staff and others who review plans for compliance with fire and building codes to ensure public safety in the built environment. Content in this book is appropriate for any plan examiners in fire prevention divisions, fire marshal bureaus, building departments, and community risk reduction organizations. The 15 chapters in this book present material that meets the job performance requirements (JPRs) of Plan Examiner I and II according to the *NFPA 1031: Professional Qualifications for Fire Inspector and Plan Examiner (2014)*. Plan Examiner II requires an in-depth review of sprinkler and fire alarm shop drawings; these are not included in this book.

Four hundred and twenty key terms and definitions are highlighted throughout the book and are included in the glossary. The book features updated photos and illustrations. A sample set of blueprints are referenced in the book and are available to purchase in a package with the text.

This text book is used frequently in higher education classes as well as courses to meet the requirements for fire service professional qualifications certification.

**BUILDING CONSTRUCTION RELATED TO THE FIRE SERVICE, 4<sup>TH</sup> EDITION**

The basic fire suppression mission of a firefighter is to enter a burning structure, rescue occupants, and extinguish the fire. The firefighter enters an unknown environment. Effective and safe fire fighting in a structure requires the firefighter to understand building construction, building materials, and the impact of fire on buildings.

The landscape of communities today include buildings made of modern, engineered materials as well as legacy buildings constructed in the early twentieth century or before, and everything in between. All members of the fire service regardless of their area of responsibility need an understanding of how structures are built, the nature of the construction materials, and how the buildings are likely to respond under fire conditions.

This new edition provides information about building design, construction, construction materials, and how these relate to emergency operations. The information is important for fire prevention and for fire fighting strategy and tactics. Knowledge of building construction is vital when enforcing fire codes, inspecting buildings, developing pre-incident plans, fighting fire, directing fire ground operations, performing the duties of the incident safety officer, or investigating fires. A thorough understanding of building construction enables fire department personnel to make better and safer decisions to protect people and property.

This textbook is designed to meet the objectives identified in the model course outline for Building Construction for Fire Protection as established by the Fire and Emergency Services Higher Education (FESHE) initiative of the United States Fire Administration (USFA).

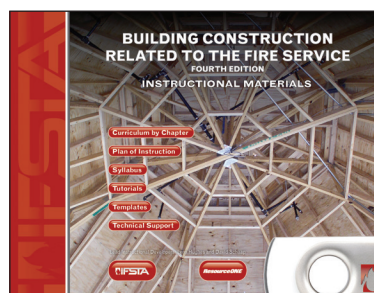

Although this text is not based on an NFPA® standard, it includes content related to requisite knowledge from NFPA® 1001, 1006, 1021, and 1031.

### AIRCRAFT RESCUE AND FIRE FIGHTING, 6<sup>TH</sup> EDITION

Airport Firefighters, Airport Driver Operators, and Airport Crew Chiefs will use this text to meet the most current NFPA, FARs, and ICAO requirements.

The book includes:

- 31 Skill Sheets NEW in this edition
- Photos, Illustrations, and Learning Activities – ALL NEW
- Review Questions for all 12 chapters
- Exam Prep for students is a separate item

This book provides the information firefighters need to effectively perform the tasks for aircraft rescue and fire fighting, and to complete airport firefighter certification. Content includes:

- Familiarization with civilian and military aircraft
- Airport familiarization
- Operating structural and specialized aircraft fire fighting apparatus and equipment
- Safety and aircraft hazards
- Airport fire and rescue communications
- Rescue tools and equipment including gaining access to aircraft interiors
- Aircraft fuels, aircraft components, and extinguishing agents
- Aircraft fire suppression strategy and tactics including engines, auxiliary power units, wheel assemblies, and rocket engines
- ARFF vehicle driver operator
- Airport emergency planning
- The theory and practice of aircraft fire fighting and rescue operations

The information in this manual is intended to meet the requirements of:

NFPA 1003: *Standard for Airport Fire Fighter Professional Qualifications* (2015)

NFPA 1002: *Standard on Fire Apparatus Driver/Operator Professional Qualifications* (2014) Chapter 9 requirements are also included.

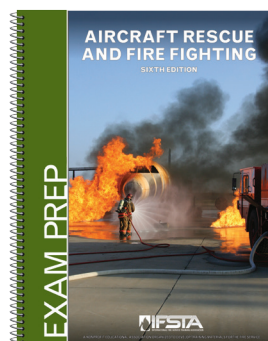

NFPA 402: *Guide for Aircraft Rescue and Fire-Fighting Operations* (2013)

NFPA 403: *Standard for Aircraft Rescue and Fire-Fighting Services at Airports* (2014) are referenced throughout the book.

Federal Aviation Regulations (FARs) 139.315, 139.317, and the International Civil Aviation Organization (ICAO) Airport Services Manual, Parts 1 and 7 training requirements are included.

Complete IFSTA Curriculum is a separate item and provided by IFSTA at no cost to qualified instructors.

## INTRODUCTION TO FIRE ORIGIN AND CAUSE, 4<sup>TH</sup> EDITION

**Fire Investigating for Firefighters and Company Officers**

- Updated fire behavior dynamics
- More detailed illustrations of fire patterns
- In-depth ignition sequence, post-scene investigation
- Expanded section on vehicle fires

**Introduction to Fire Origin and Cause, 4<sup>th</sup> Edition**, addresses key sections of NFPA® 1001 (2013) and NFPA® 1021 (2009) that focus on the first responder's responsibility to begin the process of fire investigation. Validated by IFSTA subject matter experts dedicated to providing an accurate firefighter guide to the process of fire origin and cause determination, the 4<sup>th</sup> edition has significant updates and new information.

The information in this book helps first responders protect themselves by understanding the hazards present at a fire scene. It explains how fires behave and how that information is relevant to fire investigations. It emphasizes the importance of securing the scene to prevent spoliation, and helps responders to identify the area of origin by analyzing fire patterns and other information. Also included is the process and information necessary to determine the fire cause.

New information in the 4<sup>th</sup> edition includes the latest scientific research on fire behavior and dynamics. The edition features new information about area of origin, evidence identification and preservation, hypothesis and testing, vehicle fire analysis, and fire cause determination.

Featuring updated photos and artwork throughout the book, it has IFSTA's new format and is accompanied by a curriculum.

## FIRE INVESTIGATOR, 2<sup>ND</sup> EDITION

This 2<sup>nd</sup> edition manual is designed to provide fire investigators with the resources necessary to meet the job performance requirements for fire investigators outlined in NFPA® 1033. Arson investigators, private and public fire investigators, officers responsible for origin and cause determination, and students training to become investigators will find this manual to be an essential resource. This edition places emphasis on area of origin and cause determination with expanded information about fire pattern analysis. The text includes but is not limited to the following topics:

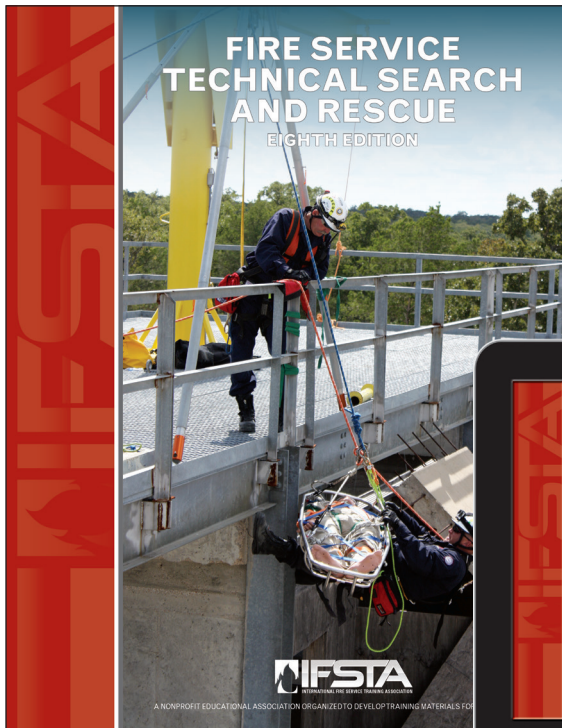

- Safe practices for conducting an investigation
- Effects of fire and explosion science on fire investigation
- Building construction and building services
- Investigative process
- Protecting, documenting, and collecting evidence
- Conducting interviews
- Scene examination and reconstruction
- Area of origin determination
- Ignition source, sequence, and cause determinations
- Explosion dynamics
- Explosion scene examination
- Explosion origin and cause determination

## FIRE SERVICE TECHNICAL SEARCH AND RESCUE, 8<sup>TH</sup> EDITION

**Fire Service Technical Search and Rescue, 8<sup>th</sup> Edition** is a primary training text for Level I Rescuers according to NFPA® 1006. The manual presents the knowledge and skills for fire service search and technical rescue for Level I Rescuers to safely and effectively conduct Operations-level rescues as defined in NFPA® 1006. The book also supports the corresponding chapters of NFPA® 1670, *Standard on Operations and Training for Technical Search and Rescue Incidents* (2014). According to NFPA® 1670, an Operations Level Rescuer is able to participate in more complex search and rescue incidents under the supervision of a Rescue Technician.

This NEW training manual focuses on Operations-level situations most common for firefighters and rescue squad members. Technician-level information has been included to provide Operations-level fire/rescue personnel with the background information needed to effectively support complex technical rescue operations. A firefighter or rescue squad member will find the knowledge and skills in this manual to safely and effectively perform basic search and rescue operations under appropriate supervision.

## PRINCIPLES OF VEHICLE EXTRICATION, 4<sup>TH</sup> EDITION

59 Skill Sheets  
NFPA 1006, *Standard for Technical Rescuer Professional Qualifications*, 2017 Edition, Chapter 8, Vehicle Rescue

This all new edition provides rescue personnel with techniques, skills, and equipment available for the safe and effective extrication of victims trapped in vehicles and related machinery.

**NEW** passenger vehicle technologies:

- Fuel Systems:
  - Electric, Plug-in Electric, Extended Range Electric, Hybrid
  - CNG, LPG, Biofuel, and Ethanol
  - Hydrogen
- Electrical Systems:
  - Keyless Entry
  - Various Batteries (Traditional, Lithium Ion, and others)
- Collision Avoidance Systems
- Updated information for other vehicle systems

### Awareness, Operations, and Technician Level Rescuers

- Passenger Vehicle Extrication
- Heavy Vehicle Extrication
- Special Extrication Situations

### Training Appropriate for

- Firefighters
- Law enforcement
- Emergency Medical Services (EMS)
- Industrial emergency responders
- Transportation, public works, and utility staff
- Military responders
- Rescue personnel

Appendix A correlates the NFPA JPR's to the specific page(s) in the text.

## TECHNICAL RESCUE FOR STRUCTURAL COLLAPSE, 1<sup>ST</sup> EDITION

North American Version

Because fire department personnel are usually the first responders to structural collapses, firefighters should be trained to locate and free victims in the safest and most efficient way possible.

This manual, which addresses the structural collapse portion of NFPA® 1006, *Standard for Rescue Technician Professional Qualifications*, and the 1999 edition of NFPA® 1670, *Standard on Operations and Training for Technical Rescue Incidents*, is designed to go beyond the basic rescue skills detailed in the **Fire Service Search and Rescue** manual to cover those needed by the rescue technician at these types of incidents.

## **FIRE AND EMERGENCY SERVICES SAFETY OFFICER, 2<sup>ND</sup> EDITION**

IFSTA's **Fire and Emergency Services Safety Officer, 2<sup>nd</sup> Edition** meets the job performance requirements of NFPA® 1521, *Standard for Fire Department Safety Officer Qualifications* (2015). The new standard has been updated to include job performance requirements. The 2<sup>nd</sup> edition provides the reader with everything needed to meet the requirements for both health and safety officers (HSOs) and incident safety officers (ISOs). The manual is divided according to discipline: Chapters 1-12 are for HSOs, Chapters 13-16 for ISOs. Chapters 2-16 include learning activities designed to guide the reader through a practice exercise covering that chapter's content. Each chapter opens with a case history that illustrates a real world example of that chapter's information in application. Finally, most chapters include end notes that guide the reader toward research that was used to develop portions of each chapter.

### **Section A Health and Safety Officer (HSO)**

1. Health and Safety Officer Responsibilities
2. Safety and Health Laws, Codes, Regulations, and Standards
3. Record Keeping and Data Analysis
4. Standard Operating Procedures
5. Organizational Risk Management
6. Operational Risk Management
7. Safety and Health Programs
8. Training Functions
9. Root Cause Analysis: Accident Investigation and Postincident Analysis
10. Facilities Inspection
11. Apparatus, Equipment, and Protective Clothing
12. Reports and Recommendations

### **Section B Incident Safety officer (ISO)**

13. Risk Management Principles
14. Incident Hazard Identification
15. Incident Responsibilities
16. Accident Investigation and Postincident Analysis

\*See pages 46-47 for descriptions of the IFSTA/FPP Support Products. See page 52 for Action Training DVD's

## OCCUPATIONAL SAFETY, HEALTH, AND WELLNESS, 4<sup>TH</sup> EDITION

Publish date 2018  
This text is all **NEW** and meets the Fire and Emergency Services Higher Education (FESHE) learning outcomes and lesson outlines for the associates course, Occupational Safety and Health for Emergency Responders.

Fire and emergency responder safety is a primary responsibility of all emergency services organizations and responders. This manual

provides guidance to achieve the requirements of NFPA® 1500, Standard on Fire Department Occupational Safety and Health Program. The content is a guide to a comprehensive occupational safety, health, and wellness program in a fire and emergency response organization.

### **This text includes how to:**

- Implement and manage occupational safety and health programs
- Motivate the fire and emergency services organizations to prioritize safety and health
- Establish safety and health objectives for the organization
- Ensure a safe and healthy work environment in emergency and nonemergency activities

### **Key Features:**

- The chapters are correlated to the FESHE outcomes
- Up to date health, safety, and wellness standards and statistics
- Content is concise and easy-to-follow
- Research citations and endnotes are included

### **Safety and Health topics in the manual include the following:**

- Risks, hazards, and managing risk
- Creating a safety culture
- Physical fitness, wellness, and health considerations
- Training safety
- Apparatus and emergency vehicle safety
- Tool and equipment safety, maintenance, and operation
- Personal protective equipment selection, care, and use
- Emergency scene safety
- Facility safety
- Safety program establishment and implementation

## FIRE AND LIFE SAFETY EDUCATOR, 3<sup>RD</sup> EDITION

**Fire and Life Safety Educator, 3<sup>rd</sup> Edition** provides the educator with knowledge to support successful performance as a fire and life safety educator as addressed in NFPA® 1035, *Standard for Professional Qualifications for Fire and Life Safety Educator, Public Information Officer, and Juvenile Firesetter Intervention Specialist*.

New to the **Fire and Life Safety Educator** manual is the addition of two

levels: Juvenile Firesetter Intervention Specialist I and Juvenile Firesetter Intervention Specialist II. All levels are covered separately for ease of use. In all, this edition covers five levels of the standard:

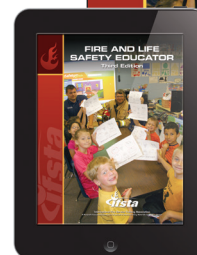

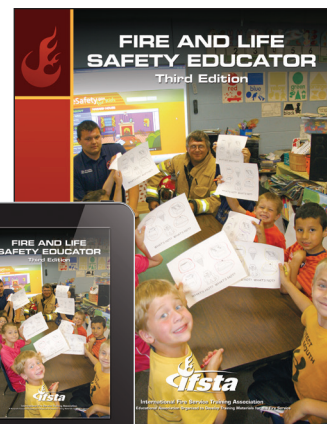

- Fire and Life Safety Educator Level I: Chapters 2-6
- Fire and Life Safety Educator Level II: Chapters 7-11
- Fire and Life Safety Educator Level III: Chapters 12-16
- Juvenile Firesetter Intervention Specialist I: Chapters 17-20
- Juvenile Firesetter Intervention Specialist II: Chapters 21-25

This manual should be the first document on a public educator's bookshelf and a "ready reference" of public education knowledge. The manual is intended to *educate* the educator rather than to *train* the educator. In this way, the educator will be able to apply knowledge and skills to many different areas under the "umbrella" of injury prevention and control. The manual focuses on all-risk education. This manual is intended to assist in preparing for certification to the Fire and Life Safety Educator I, II, and III and Juvenile Firesetter Intervention Specialist I and II levels of NFPA® 1035, *Standard for Professional Qualifications for Fire and Life Safety Educator, Public Information Officer, and Juvenile Firesetter Intervention Specialist*, (2010).

## PUBLIC INFORMATION OFFICER, 1<sup>ST</sup> EDITION

*Delivered on CD-ROM*

The role of public information officer (PIO) is very important to every department. While some agencies are able to assign the role on a permanent basis, others may assign the duty as needed. This manual will assist any person who serves in the role of PIO or spokesperson to understand the news media and learn how to develop good

relations with them. It functions as a study manual as well as an on-scene reference guide.

**Public Information Officer** is based on job performance requirements in NFPA® 1035, *Standard for Professional Qualifications for Public Fire and Life Safety Educator* (1999 edition). The chapters, as well as sample forms and documentation, are provided in Adobe® Acrobat® PDF format, which works on both Windows® and Macintosh® computers.

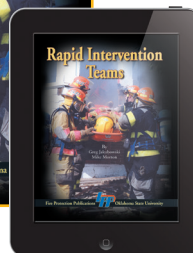

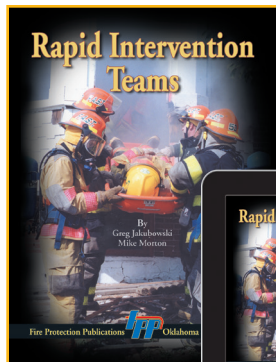

Publisher: Fire Protection Publications  
Edition/Publication Date: 1<sup>st</sup> Edition (1999)

## RAPID INTERVENTION TEAMS, 1<sup>ST</sup> EDITION

*By Gregory Jakubowski and Michael Morton*

This manual will guide you through the regulations and standards that apply to rapid intervention, give you options for implementation and dispatch of rapid intervention units, provide equipment lists for rapid intervention work, show how work can be performed using existing equipment and training, and explain how a two-team concept can provide the resources for most rescue situations.

## UNDERSTANDING AND IMPLEMENTING THE 16 FIREFIGHTER LIFE SAFETY INITIATIVES, 1<sup>ST</sup> EDITION

This textbook was developed as a joint project between the National Fallen Firefighters Foundation (NFFF) and Fire Protection Publications. It provides a detailed overview and implementation of strategies for the 16 Firefighter Life Safety Initiatives that were developed by the NFFF at their landmark summit in 2004. Each chapter was written by a different highly respected fire service subject matter expert for that topic. This text provides the information necessary to meet the FESHE *Principles of Fire and Emergency Services Safety and Survival* (associate degree level) and *Advanced Principles in Fire and Emergency Services Safety and Survival* (bachelor degree level) courses.

## MARINE FIRE FIGHTING FOR LAND-BASED FIREFIGHTERS, 2<sup>ND</sup> EDITION

This manual prepares firefighters and emergency responders to meet the Marine Fire Fighter I and Marine Fire Fighter II training and certification requirements of NFPA® 1005, *Standard for Professional Qualifications for Marine Fire Fighting for Land-Based Fire Fighters* (2007 edition). This textbook gives assistance to fire service personnel with the training, knowledge, technical information, and reference materials necessary for the

safe and effective management of marine fire incidents. It describes the roles and responsibilities of the vessel's crew, emergency responders, and other agencies, including the implementation of a unified command structure within an incident management system. The book describes common situations encountered in vessel fire situations for vessels of all sizes.

## eBOOK EMERGENCY MANAGEMENT HANDBOOK, 1<sup>ST</sup> EDITION

The **Emergency Management Handbook, 1<sup>st</sup> Edition** provides a groundwork on which emergency services can build a strong foundation for disaster and emergency management and homeland security in the 21st century. Many relatively new requirements, standards, rules, policies, regulations, presidential directives, and laws exist. The main focus of the handbook is to address the requirements of NFPA® 1600, *Standard on Disaster/Emergency Management and Business Continuity Programs* (2007), as a minimum and build on them to provide even more information to the reader.

The **Emergency Management Handbook** was written by emergency management planning professionals for emergency management practitioners, managers, professors, and students along with the news media and the general public. It addresses the issues, policies, questions, best practices, and lessons learned through recent years.

Several appendices, a bibliography, and a glossary are included. A bonus CD-ROM disc containing additional reference documents completes the manual.

# STRUCTURAL FIRE FIGHTING

## STRUCTURAL FIRE FIGHTING: INITIAL RESPONSE STRATEGY AND TACTICS, 2<sup>ND</sup> EDITION

ALL NEW Strategy and Tactics with 15 Structure Fire Training Scenarios

Be a better decision maker and incident commander at structure fires!

This all new book provides strategy and tactics for the incident commander arriving at structure fire incidents using the available responding resources. Learn to assess the fire situation, initiate a command structure, and deploy resources until the transfer of command or termination of the incident.

The NEW fire dynamics content includes the latest research on fire behavior from UL and NIST with all new photographs and drawings that illustrate these new fire science concepts. Read and see the new science so that you can apply it to structure fires.

Strategies and tactics from national experts are presented and applied to hypothetical structure fire scenarios throughout the book.

The target audience is all career and volunteer personnel who respond to single and multifamily dwelling incidents, commercial occupancies, and unique target or special hazards events.

The manual meets the requirements of the FESHE course outcomes for the associate level course, "Strategies and Tactics." This manual also broadens the knowledge of the strategy and tactics JPR's in NFPA®1021, Standard for Fire Officer Professional Qualifications.

The manual is the best choice for use in training agencies, college degree programs, and as a resource for firefighters and fire officers who serve as, or are training to be, incident commanders. Additional standards referenced in the manual include NFPA 920, 921, and 400.

Each of the last 3 chapters include 5 training scenarios that reflect real incidents that an incident commander will find when responding to a residential structure, a commercial structure fire, and a structure fire with special hazards.

The chapters included in this manual are:

1. Fire Dynamics
2. Pre-fire Planning
3. Managing the Incident
4. Size-Up: Evaluation and Assessment
5. Strategy
6. Tactics
7. Residential Scenarios
8. Commercial Scenarios
9. Special Hazard Scenarios

## STRUCTURAL FIRE FIGHTING: HIGH-RISE FIRE FIGHTING, 2<sup>ND</sup> EDITION

**Structural Fire Fighting: High-Rise Fire Fighting, 2<sup>nd</sup> Edition**, is designed to be a companion to IFSTA's other **Structural Fire Fighting** manuals: **Truck Company Skills and Tactics** and **Initial Response Strategy and Tactics**. This manual provides an overview of historic

high-rise fires, construction features, fire behavior, water supply, fire protection systems, elevators and escalators, evacuation procedures, preincident planning, incident command, strategy and tactics, and special situations. Topics such as hazardous exposures, wind-driven fires, staging and communications, and working with fire protection systems are given special emphasis.

## STRUCTURAL FIRE FIGHTING: TRUCK COMPANY SKILLS AND TACTICS, 2<sup>ND</sup> EDITION

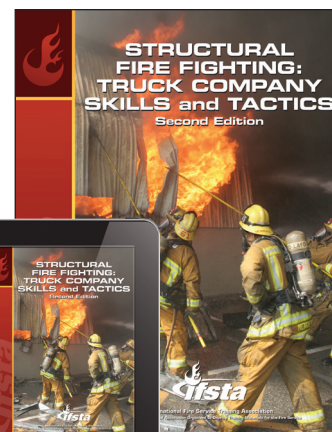

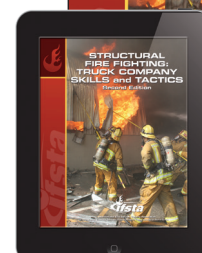

This manual is designed to be a resource for those who engage in "truck work" on the fireground. Building on concepts introduced in **Essentials of Fire Fighting**, this manual provides more detailed information on such topics as forcible entry, fireground search and rescue, horizontal and vertical ventilation, rapid intervention, loss control, and many other responsibilities traditionally assigned to truck companies.

This manual builds on the information contained in **Fireground Support Operations, 1<sup>st</sup> Edition**, and has a special focus on safe fireground operations. Each chapter begins with Safety Points that highlight specific safety reminders for tasks addressed in the chapter. In addition, a scenario at the end of each chapter encourages the reader to apply concepts that have been learned.

# HYDRAULICS AND WATER SUPPLY

## FIRE SERVICE HYDRAULICS AND WATER SUPPLY, 2<sup>ND</sup> EDITION

By Michael Wieder

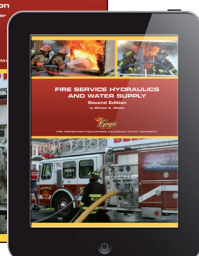

The ability to find a sufficient water supply and use it effectively to control a fire remains one of the most basic functions of the fire service. This text provides detailed information on the principles of water and its movement, determining accurate discharge pressures and fire flows, the types of apparatus and pumps used to move water, and effective means for supporting fixed fire protection systems. This 2<sup>nd</sup> edition includes up-to-date photos and illustrations. This manual was written to meet all of the FESHE model course objectives for the *Fire Protection Hydraulics and Water Supply* course. The Instructor Materials disc provides improved instructor outlines, PowerPoint® presentations, and test questions.

## INDUSTRIAL EXTERIOR AND STRUCTURAL FIRE BRIGADES, 1<sup>ST</sup> EDITION

This is the first manual of its kind developed to address the specific needs of industrial advanced exterior and interior structural fire brigades. The purpose of this manual is to:

- Support management personnel in complying with applicable laws and regulations
- Support the training of personnel who will provide advanced exterior and interior structural fire control for industrial occupancies
- Expand the student's knowledge and serve as a training source for individual industrial emergency responders

The scope of the manual includes, but is not limited to, those standards, laws, and regulations that apply to fire brigade members who serve at the advanced exterior fire fighting and interior structural fire fighting levels.

## INDUSTRIAL FIRE BRIGADE: EXTERIOR AND STRUCTURAL DVD SERIES

This 11-part DVD series teaches to: advanced exterior and interior structural levels of NFPA® 1081, *Standard for Industrial Fire Brigade Member Professional Qualifications*.

Students see how brigades are organized and are shown their functions and limitations under occupational safety regulations. The series demonstrates the operation and maintenance requirements for common industrial fire fighting equipment, such as portable extinguishers and fixed extinguishing systems, fire alarm and detection systems, fire hose, nozzles, appliances, and tools. The series also provides demonstrations of fire behavior, hazard communication systems used at industrial sites, evacuation procedures, fire safety surveys, and the incident management system.

Make the most of precious firefighter training time and prepare students for hands-on training with specialized demonstrations of the knowledge and skills required to fight industrial emergencies before they become industrial disasters.

## INDUSTRIAL FIRE BRIGADE: INCIPIENT LEVEL DVD SERIES

Industrial fire brigades can provide rapid, on-site response to fires and other workplace emergencies, minimizing injuries, loss of life, and property damage. Our first series of 12 programs for the industrial sector is designed for training fire brigade members to the incipient level, which provides the capability to extinguish incipient-stage fires while wearing normal work clothing. This basic training is a prerequisite for advanced exterior and/or interior structural level fire brigades.

Students see how brigades are organized and are shown their functions and limitations under occupational safety regulations. The series demonstrates the operation and maintenance requirements for common industrial fire fighting equipment, such as portable extinguishers and fixed extinguishing systems, fire alarm and detection systems, fire hose, nozzles, appliances, and tools. The series also provides demonstrations of fire behavior, hazard communication systems used at industrial sites, evacuation procedures, fire safety surveys, and the incident management system.

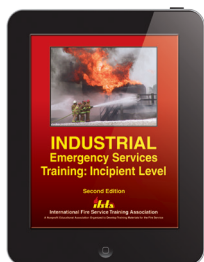

Publisher: Action Training Systems

Complete 12-DVD Series

**Item 37911.....\$4,690.00**

## eBOOK INDUSTRIAL EMERGENCY SERVICES TRAINING: INCIPIENT LEVEL, 2<sup>ND</sup> EDITION

This manual covers those standards, laws, and regulations that apply to the incipient level fire brigade member. NFPA® 600, *Standard on Industrial Fire Brigades*, and NFPA® 1081, *Standard for Industrial Fire Brigade Member Professional Qualifications*, are addressed in this manual. These standards outline general requirements for an organized industrial fire brigade and define minimum professional requirements for incipient industrial fire brigade members. However, the functions that the industrial fire brigade will be expected to perform in the workplace are site-specific and will vary from facility to facility and from company to company.

This book is written for industrial emergency services personnel who fight incipient-stage fires and for management personnel who are responsible for developing procedures and training for the industrial fire brigade.

## THE SOURCEBOOK FOR FIRE COMPANY TRAINING EVOLUTIONS, 3<sup>RD</sup> EDITION

By Michael Wieder

Thousands of fire instructors and officers have used this reference to deliver easy, meaningful two- to three-hour training programs within their fire departments. Busy fire instructors and training officers who struggle to arrange and prepare weekly or monthly training drills will appreciate this text as it has 75 training sessions completely prepared and ready

for implementation. Training sessions include basic firefighter skills, driver/operator skills, activities for inclement weather, company evolutions, and competitive, yet useful, exercises.

The training sessions in this 3<sup>rd</sup> edition cover most of the major job performance requirements in the 2008 version of NFPA® 1001 and the 2009 version of NFPA 1002®. This edition is spiral bound which allows it to lay flat when being used. Each session contains information on the standards being covered, the equipment that is needed, outlines for presentations and practical exercises, discussion questions, and recommended references. New to the 3<sup>rd</sup> edition is a CD-ROM contained in every manual that includes short PowerPoint® presentations for most sessions and Word® versions of every session to allow the instructor to customize the files for local use, if desired.

Publisher: Fire Protection Publications  
Edition/Publication Date: 3<sup>rd</sup> Edition (2009)

## 3D FIRE FIGHTING, 1<sup>ST</sup> EDITION

By Paul Grimwood, Ed Hartin, John McDonough, and Shan Raffel

Written for fire chiefs, fire administrators, engineers, and firefighters, this book and CD-ROM explore new approaches to tactical venting options and fire confinement strategies, providing primary teaching aids relative to various forms of rapid fire progress, compartment fire behavior training, and tactical fire attack.

## PROGRESSIVE LEADERSHIP PRINCIPLES, CONCEPTS, AND TOOLS, 1<sup>ST</sup> EDITION

By Dennis Compton

This book replaces the *When in Doubt, Lead!* series previously written by Chief Compton (they will go out of print when supplies run out). This book is written for current or aspiring fire service managers and leaders. This text focuses on enhancing employee development, personal and organizational development, and creating a prepared, focused, empowered, and safe workplace. It provides detailed information on managing agencies during tough times and the fire department's role in the political process. This manual will work well in officer or leadership courses or classes and is also an excellent reference for fire officer promotional processes.

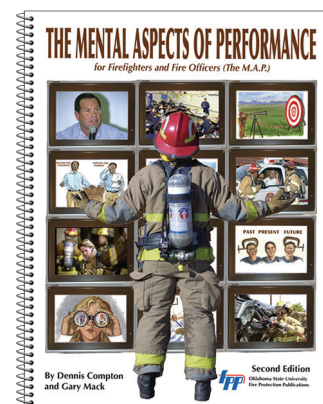

Publisher: Fire Protection Publications  
Edition/Publication Date: 1<sup>st</sup> Edition (2010)  
Pages: 136

## THE MENTAL ASPECTS OF PERFORMANCE FOR FIREFIGHTERS AND FIRE OFFICERS (THE M.A.P.), 2<sup>ND</sup> EDITION

By Dennis Compton and Gary Mack

Mental training is a key component of progressive training and safety programs. The *M.A.P.* provides the best road map available to implement a structured curriculum dedicated to minimizing mental letdowns and maximizing performance. It has been developed in a format that is easily adaptable as a self-study program or can be used by students and instructors as a workshop curriculum.

## COMMAND AND CONTROL: ICS, STRATEGY DEVELOPMENT, AND TACTICAL SELECTIONS, BOOK 1, 2<sup>ND</sup> EDITION

By Burton Phelps and Robert Murgallis

This book covers incident scene decision-making in depth; provides techniques to enhance a firefighter's ability to make rapid, correct decisions based on knowledge of various types of occupancies; and addresses the development of strategy and tactics, and the size-up process.

This book presents the

Incident Command System (ICS) from the perspective of day-to-day application. While branch operations, complex command, and area command are discussed; the ICS presented principally addresses those functions needed to handle the majority of incidents to which firefighters respond. Specific information common to types, or groups, of occupancies is presented with examples, and reader activities are included in each chapter. Occupancy-specific cues, cue-based decision-making, incident management cues, and strategy and tactics are provided for each occupancy type covered.

## COMMAND AND CONTROL: ICS, STRATEGY DEVELOPMENT, AND TACTICAL SELECTIONS, BOOK 2, 2<sup>ND</sup> EDITION

By Robert Murgallis

This book details the basic processes that apply to all incidents as well as some of the specific procedures necessary to make effective decisions at certain common occupancies. The authors explain basic ICS elements using an easy-to-understand method and introduce the concepts of Unified Command, Complex Command, Area Command, and Incident Management Teams.

## EMERGENCY SERVICES PERSONNEL TESTING PRACTICES, 1<sup>ST</sup> EDITION

By Henry Morse

This book is a step-by-step guide to planning and implementing a successful entrance exam or promotional test for a police, fire, or EMS organization. Common and sometimes tricky issues are discussed. These include disparate impact, increasing the representation of a particular demographic group, challenges, and grievances.

The author's professionally built and time-tested protocols in the text address known problems when conducting written testing, assessment centers, and psychological screenings. The process includes stakeholder buy-in before any testing process is begun, by providing standard, sound, and transparent procedures that people can see and agree on. The protocol ensures fairness, technical quality, standardization, and transparency.

The author recommends an examination and testing process preparation timeline. This is a must-have for human resource directors, fire and police chiefs, EMS directors, and union officials to ensure fair, transparent, effective, and valid testing in your organization.

Henry Morse, B.A., M.A., B.A., NFPA Instructor Level IV is the president of Fire Service Testing Company, Inc. He has been consulting with jurisdictions and designing entry and promotional testing processes and instruments for police, fire, and EMS agencies across North America for more than 20 years.

Step by step guide for testing your Police, Fire, or EMS personnel for entry or promotion using valid, technically-correct method.

Includes:

- Choosing a Book List
- Prep Time / Prep Aids
- Challenges - Which are Valid?
- Disparate Impact
- What to do in-house, What to out-source
- Assessment Centers
- Psychological Evaluations
- Increase Minority Representation

# GLOSSARY OF SUPPORT PRODUCTS

## EXAM PREP

**Media Available:** Print

**Purpose:** To prepare students to successfully complete written exams, acclimate to the testing process, instill confidence, and reduce test anxiety.

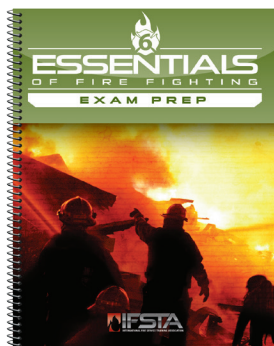

**Method:** Multiple choice questions as used by colleges, departments, and certification agencies. Provides correct answers and page references to the manual for further study.

**How to use the Exam Prep/Self Study Guide/Study Guide:**

Students can complete each set of questions to review information in each chapter of the manual and/or before formal examinations. Reviewing in this way can help identify subjects requiring additional study time.

**Benefit to Students:** Students become experienced with the multiple-choice question format, identify testing strategies to prepare for examinations, work toward reducing test anxiety, and are able to focus on areas of weakness that require more preparation. This process allows students to ultimately make better use of their study time.

**Benefit to Instructor:** Students are prepared for exams and experience high success rates. Checking their own progress allows better use of class time.

## COURSE WORKBOOK (STUDENT)

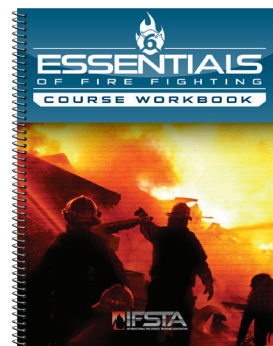

**Purpose:** To engage the student in the content of each chapter, and to reinforce and apply concepts presented by the instructor.

**Method:** Each chapter provides a range of question types including: definitions, true/false, fill in the blank, picture identification, matching, multiple choice, short answer, scenarios, and crossword puzzles to review key terms. Each question provides page references to the manual for further study (answer key provided with instructor curriculum).

**How to use the Student/Course Workbook:** Assign a Workbook lesson before class to introduce the student to key concepts, allowing better use of class time. Have students complete a Workbook lesson after class to reinforce important information, theories, or challenging subject matter.

**Benefit to Students:** Students become actively engaged in the learning process and further understand concepts and theories, and how to apply. Different types of questions and activities reinforce different learning styles.

**Benefit to Instructor:** Allows the instructor to utilize classroom time more efficiently. Reinforces key concepts, enabling students to correctly interpret information both in and out of the classroom. Provides instructor with learning activities to measure students' progress and evaluate the effectiveness of instructional techniques.

## CURRICULUM/INSTRUCTOR MATERIALS

**Media Available:** USB Flash Drive, ResourceOne

**Purpose:** To provide instructors and training agencies with the materials needed to teach corresponding courses.

**Method:** Instructor outlines, PowerPoint® presentations, and review questions. These materials also include: Chapter quizzes and tests (with answer keys), answers to the Student/Course Workbook, and Learning Activities/Skill Evaluation Checklists (as needed by manual).

**How to use the Curriculum/Instructor**

**Material:** Build a course plan using customizable instructor outlines, customize PowerPoint® presentations to complement course instruction, and develop tests and reviews using provided questions and answers.

**Benefit to Students:** Students' instruction is consistent with the manual, allowing accelerated learning. Instructors are provided with multiple teaching methods to further student understanding of the material, and to reinforce key concepts and illustrations.

**Benefit to Instructor:** Shortens instructor preparation time while allowing full customization and provides a portable, easy-to-use instructional method.

## INSTRUCTOR RESOURCE KIT

Designed for instructors with the curriculum materials on a flash drive. With the IRK all instructional materials go where you go and are available when the Internet connection is not reliable. The print textbook and the Exam Prep Print are included.

## RESOURCEONE (R1)

**ResourceOne**

Provides a one-stop resource for instructors wanting to train students using IFSTA materials. IFSTA's 80-year history as a developer of comprehensive, validated fire service training materials make **ResourceOne** the ultimate source for in-classroom, blended, and online training. Please see page 11 for more **ResourceOne** details.

## eBOOKS

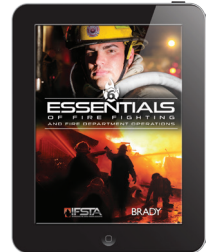

**eBook** versions of manuals are now available and can be accessed using a PC, Mac, iPad, iPhone, or Android-based device.

**Purpose:** This format allows both instructors and students to access manual content in a variety of forms that may better suit a mobile lifestyle.

**How to use the eBook:** Read and make notes, highlight, and set bookmarks within the **eBook** to facilitate learning and review of information.

**Benefit to Students:** The **eBook** format can be beneficial to students who need to study in an environment not conducive to traditional print formats. Using the **eBook** in courses may allow students better access to information.

**Benefit to Instructor:** The **eBook** format is also beneficial to instructors who may need access to multiple titles. By choosing this format over the print version, instructors can carry several manuals in a single device.

### Action Training Systems (ATS) programs are available in 3 delivery formats:

1. **DVD** – Available in the IFSTA Catalog and at IFSTA.org
  - a. Traditional DVD format with chapter sections
  - b. Playable on computers or DVD players
  - c. Typically presented in a classroom setting to groups of students
  - d. Sold separately – ATS Instructor PowerPoints® and Question Files (*requires Exam View*)
2. **Online Streaming Video** – ATS Online
  - a. Same high-resolution video content as the DVD but delivered in streaming video format via the internet (*similarly compare Netflix® streaming to Netflix® DVDs*)
  - b. ATS Instructor PowerPoints® included
  - c. Playable on PC or Mac computers and mobile devices
  - d. Can be played straight through or played by section similar to chapters on a DVD
  - e. Can be presented in a traditional classroom setting or individually viewed by students from any location where a broadband internet connection is available
  - f. Independent viewing by students is tracked and recorded via the online Learning Management System
  - g. Sold separately – ATS Question Files (*requires Exam View*)
3. **Interactive Online Courses** – ATS Online
  - a. All the same high-resolution video content used in the DVD and online streaming is presented in the online interactive course with the addition of interactive formative assessments, section quizzes, and final exams
  - b. Can be accessed individually by learners from any location where a broadband internet connection is available or used in classroom settings
  - c. Playable on PC or Mac computers and some mobile devices
  - d. All student activity and test scores are tracked and recorded, via the online Learning Management System
  - e. Multi-year subscriptions to interactive courses include: interactive courses (*includes all questions in the question files*), streaming video without interactivity, Instructor PowerPoints®, stand-alone exam modules for test-out and group session testing

ATS programs delivered in any of these 3 formats are designed to be used as part of a course of instruction overseen by a certified instructor. They serve as excellent instructor resources to be used as part of the initial certification training and also refresher or continuing education instruction.

All ATS programs teach to recognized national standards such as NFPA, OSHA and NEMSES.

Please contact an IFSTA Sales Associate at 800.654.4055 for access to the Online Streaming Videos or the Interactive Online Courses.

## ESSENTIALS OF FIRE FIGHTING DVD LIBRARIES

The DVD library is what you need for mastering the basics for certification or refresher training. Each title in this 33-volume series is designed to teach current NFPA® 1001 (2008), Fire Fighter I and II skills and prerequisite knowledge. Simplify technical material and reinforce your group training objectives through the 'seeing is believing' of these training programs.

## AERIAL APPARATUS DRIVER/OPERATOR DVD SERIES

Aerial Apparatus: Driver/Operator, 5-part training series has been completely revised with all new visuals and updated information that reflects current standards and modern aerial apparatus features. Content presents the knowledge prerequisites of the current NFPA 1002, *Standard for Fire Apparatus Driver/Operator Professional Qualifications*. Course development also utilized IFSTA's **Pumping and Aerial Apparatus Driver/Operator Handbook, 3<sup>rd</sup> Edition** published in 2015.

Professional firefighters demonstrate the skills and techniques used to deploy and operate aerial apparatus at various emergency incidents. Demonstrations include stabilization, positioning, and tactics used on scene. Also presented are the inspection and maintenance requirements for an aerial apparatus as well as safe driving techniques.

Publisher: Action Training Systems  
Complete 5-DVD Series  
**Item 37211.....\$1,060.00**

## PUMPING APPARATUS DRIVER/OPERATOR DVD SERIES

This 5-part DVD series presents many of the prerequisite knowledge and skill requirements of NFPA® 1002, *Standard for Fire Apparatus Driver/Operator Professional Qualifications* (1998). Each title teaches to a specific NFPA® Standard. The series correlates with IFSTA's **Pumping Apparatus Driver/Operator Handbook 2<sup>nd</sup> Edition**.

Publisher: Action Training Systems  
Complete 5-DVD Series  
**Item 37645.....\$1,060.00**

## INFECTION CONTROL AND PREVENTION DVD SERIES

Presents types of bloodborne pathogens of concern to emergency care providers, including HBV, HCV and HIV. Reviews standards and requirements outlined in OSHA's Bloodborne Pathogens Standard. Presents standard precautions, safe work practices and engineering controls used to prevent or minimize the risk of occupational exposure. Demonstrates what actions to take after an exposure incident

Publisher: Action Training Systems  
Complete 3-DVD Series  
**Item 37547.....\$675.00**

## FIRE OFFICER I DVD SERIES

Each title in Action Training System's Fire Officer I Series on DVD has been designed and referenced to meet NFPA® 1021, *Standard for Fire Officer I Professional Qualifications* (2003).

Publisher: Action Training Systems  
Complete 7-DVD Series  
**Item 37678.....\$1,480.00**

## VEHICLE EXTRICATION DVD SERIES

Vehicle extrication emergencies are a leading category of response for fire and rescue personnel. Responding to these incidents is inherently dangerous because of vehicle traffic and many other hazardous conditions. Both patient and responder lives depend on solid, up-to-date training in incident management, basic operational procedures, and knowledge of tools and techniques used to complete an efficient and effective extrication. It's critical that emergency responders are aware of hazards and how to control them at an extrication scene. Familiarity and knowledge of equipment use and of new vehicle technology is key to rescuer safety.

To help instructors meet these challenges, we have expanded our Vehicle Extrication series with new programs on hybrid and electric vehicles, advanced steel and alternative techniques for situations when the team must extricate trapped patients without hydraulic rescue tools. This 10-title Vehicle Extrication series builds on the foundation of our existing seven programs, already a mainstay for training in vehicle extrication throughout the fire service.

Publisher: Action Training Systems  
Complete 10-DVD Series  
**Item 36310.....\$2,070.00**

**Individual Titles Available at IFSTA.org**

## HAZMAT CONTAINMENT DVD SERIES

This series provides an overview of the major issues and procedures arising out of hazardous materials spill control. The program teaches specifically to NFPA® 472, *Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents*, (2008).

Publisher: Action Training Systems  
Complete 4-DVD Series  
**Item 37670.....\$900.00**

## HAZMAT DECONTAMINATION DVD SERIES

This series is a detailed Operations Level guide teaching specifically to NFPA® 472, *Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents*, (2008). Covering specific training procedures including emergency, remote, technical, and mass decon. This four-part series outlines steps critical for safe and effective decon ops.

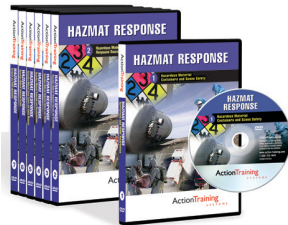

Publisher: Action Training Systems  
Complete 4-DVD Series  
**Item 36902.....\$900.00**

## HAZMAT RESPONSE DVD SERIES

Each title in this 7 DVD HazMat Response, Operations Level, series is a comprehensive, sequential reflection of NFPA® 472. The series allows instructors to track a student's progress in the same progression followed by the standard. Beyond NFPA® 472, this series includes Awareness Level information about terrorism and weapons of mass destruction as it relates to the fire service.

Publisher: Action Training Systems  
Complete 7-DVD Series  
**Item 37698.....\$1,480.00**

## HAZMAT AWARENESS DVD SERIES

This 2-part HAZMAT Awareness DVD Series teaches to NFPA® 472, *Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents*, (2008); NFPA® 1001, *Standard for Fire Fighter Professional Qualifications*, (2008); and NFPA® 704, *Standard System for the Identification of the Hazards of Materials for Emergency Response*, (2007).

Publisher: Action Training Systems  
Complete 2-DVD Series  
**Item 37676.....\$450.00**

## EMERGENCY MEDICAL RESPONDER DVD SERIES

This series includes 25 programs, on a variety of medical and trauma topics, each 15-20 minutes in length. Each program features realistic scenarios and professional responders who demonstrate patient management skills for medical and trauma related emergencies. Clearly defined training objectives combined with high-quality video and 3-D graphics creates powerful and engaging training tools that help meet national, state, and local training requirements for EMS personnel. Interactive courses are proven to enhance student proficiency and help increase confidence on scene.

ATS courses are standards-based and standards-driven. The EMR programs were developed using the most recent and accepted emergency care protocols, including the Department of Transportation National EMS Education Standards, NREMT skills, and relevant OSHA and NFPA standards. Product development also included the use of the text, *Emergency Medical Responder: First on Scene, 9th edition* (Brady/Pearson). Content review was also provided by co-author Chris J. Le Baudour as well as a host of other national subject matter experts.

Publisher: Action Training Systems  
Complete 25-DVD Series  
**Item 37240.....\$5,065.00**

## FIRE SERVICE RESCUE DVD SERIES

Each title in this 10 DVD series from Action Training System's *Fire Service Rescue Series* has been designed and referenced to meet the Operations Level standards in NFPA® 1670 (2004). The technical advisors include members of the 1670 Committee and renowned specialists in the field. An excellent teaching companion to IFSTA's *Fire Service Search and Rescue, 7th Edition* manual, this series covers basic rescue skills required of Operations Level responders.

Publisher: Action Training Systems

# ACTION TRAINING SYSTEMS

## THE INCIDENT COMMAND & MANAGEMENT SERIES

This series offers a variety of topics related to incident management and the Incident Command System (ICS). Titles in the series include an overview of the National Incident Management System (NIMS), the development and expansion of ICS at different types of incidents, and an overview of the roles and responsibilities of Command Staff and General Staff at a scene. Included in this series are two titles specific to the role and responsibilities of the Incident Safety Officer, as well as titles that focus on EMS operations within the Incident Command System, and an overview of best practices for Fire/EMS response at active shooter events.

Publisher: Action Training Systems  
Complete 7-DVD Series  
Item 37948.....\$1,480.00

### 1. INCIDENT SAFETY OFFICER: ROLES & RESPONSIBILITIES

(22:05 VideoTRT)

This title presents an overview of the role, responsibilities, and general duties of the Incident Safety Officer within the Incident Command System, as established by NFPA 1521. Also reviewed are the essential professional characteristics required for this role, including effective communication techniques.

Item 37940.....\$225.00

### 2. INCIDENT SAFETY OFFICER: INCIDENT SCENE SAFETY

(26:51 VideoTRT)

This title examines the role and responsibilities of the Incident Safety Officer while working on scene at various types of emergency incidents. Assessment and safety considerations are presented for specific incident types such as structural firefighting operations, technical rescues, hazardous materials incidents, and MCI's.

Item 37941.....\$225.00

### 3. THE NATIONAL INCIDENT MANAGEMENT SYSTEM (NIMS)

(38:32 VideoTRT)

This title provides an overview of the National Incident Management System (NIMS). It introduces key NIMS and Incident Command System concepts and principles. The understanding and use of these guiding principles enables government, private sector, and nongovernmental organizations to work together during large-scale incidents. It reviews common elements in organization, terminology, and procedures in NIMS.

Item 37942.....\$225.00

### 4. FIRE SERVICE: INITIAL COMMAND

(29:26 VideoTRT)

This title presents the roles and functions of the Incident Command System (ICS) and discusses how the system can be expanded depending on the size, complexity, and demands of an incident. It focuses on fire service response for incident complexity types 4 & 5. Described are key concepts including establishing command, building a command structure, and how to establish divisions, groups, and branches within the ICS organization.

Item 37943.....\$225.00

### 5. FIRE SERVICE: EXPANDING COMMAND

(25:35 VideoTRT)

The focus of this title is how and when to expand the Incident Command System when an incident is large at onset or is escalating in size. Described are fire service response for incident complexity types 1, 2, and 3. Reviewed are key concepts in expanding ICS, including the roles and responsibilities of the Command Staff and General Staff. The use of Area Command and Unified Area Command are also described.

Item 37944.....\$225.00

### 6. ICS: EMS OPERATIONS

(23:43 VideoTRT)

This title focuses on the key roles of EMS operations at an MCI or other large-scale emergencies. Described and reviewed are the operations of EMS personnel within the Medical Branch, including the roles and responsibilities of triage, treatment, transportation, and staging personnel. Best practices for triage operations are also presented.

Item 37945.....\$225.00

### 7. FIRE/EMS: ACTIVE SHOOTER RESPONSE

(30:10 VideoTRT)

This title presents an overview of best practices for fire/EMS personnel when working with law enforcement at the scene of an active shooter incident. Pre-incident planning activities are outlined including the importance of joint training exercises. Also included is an introduction to Tactical Emergency Casualty Care Guidelines (TECC) and a review of recommended emergency medical treatment skills for high-threat environments and extraction techniques.

**VISIT US:**

We're on the campus of  
Oklahoma State University in Stillwater.  
Call ahead and we will give you driving directions from your location.

**SHIPPING & RETURNS**

**FREE SHIPPING**

IFSTA provides free ground shipping for the 48 contiguous U.S. states. This excludes Alaska and Hawaii.

FREE SHIPPING does NOT include bookstores and IFSTA Distributors, APO, AEO, FPO, and DPO.

**General Shipping Information**

We require an actual street address (instead of a post office box) to guarantee delivery.

Same day processing can be guaranteed for orders that are submitted by 12:00 pm CDT/CST.

Shipping days are Monday through Friday and do not include Saturday and Sunday or holidays. Delayed deliveries due to inclement weather are beyond our control.

**ALASKA and HAWAII**

Free Shipping is NOT available for Alaska and Hawaii.

**APO/FPO Addresses**

APO and FPO addresses will be shipped through the U.S. Postal Service as Certified Priority Mail.

**International Customers**

Prepayment is required including shipping costs for the products ordered. Payment methods include check, credit card, money order, or draft against a U.S. bank. A \$25.00 bank processing fee will be added for electronic funds transfer (EFT).

To place an order or to receive a quote for delivery charges outside the United States (including U.S. Territories), e-mail us at **[international@osufpp.org](mailto:international@osufpp.org)** or call **800.654.4055**, or fax **405.744.8204**.

**Return Policy  
Customers**

- Items must be returned within 30 days of invoice date
- Items must be in resalable condition with shrink wrap in place
- Include a copy of the invoice
- Include an explanation for the return
- Items must be shipped via UPS or FedEx at customer expense
- Old editions cannot be returned

**Bookstores**

- Item must be in resalable condition with shrink wrap in place
- A 15% restock fee will be applied to the return
- Include a copy of the invoice
- Include an explanation for the return
- Items must be shipped via UPS or FedEx at customer expense
- Old editions cannot be returned after 6 months of new edition release date

Please call **800.654.4055**, or email customer service **[customer.service@osufpp.org](mailto:customer.service@osufpp.org)** if you have questions.

**EFFECTIVE JANUARY 1 - DECEMBER 31, 2018**
